HELIX INNOVATION STRAND WORKBOOK

CUSTOMER VALIDATION

Seneca HELIX

CUSTOMER VALIDATION

LEARNING OUTCOMES

See how **customer validation** contributes to refining your product.

Understand different ways to attract early adopters.

Become familiar with how to ask customers for useful feedback.

CUSTOMER VALIDATION

LEARNING OUTCOMES

1. Develop a series of interview questions.	**2.** Define your target customer segment and how you will reach this group to interview.	**3.** Create a spreadsheet that allows to analyze and compare your customer inputs**.**	**4.** Reach out to a minimum of 5 potential customers to set up an interview by phone or video conferencing.

Instruction: Take a look at what information is needed to perform a simple **customer validation**.

CUSTOMER VALIDATION REFLECTIVE EXERCISE

1. Develop a series of interview questions

Instruction: Develop a series of interview questions that can help validate the knowledge that you believe you know about your market, their problem and your solution.

Your questions should allow you to confirm what your customers' problem really is, how important solving this problem is to them and whether the product you offer complements the information that you learned.

CUSTOMER VALIDATION
REFLECTIVE EXERCISE

2. Define your target customer segment and how you will reach this group to interview.

Instruction: Select the customer segment you want to interview and channels you will use to reach them. Please refer to the Customer Blocks in your Business Model Canvas to choose which customer segment is best to interview. **Duplicate this slide if you have more than three target customer segment.**

Examples of channels you can use: Ask your target customers to participate in your interviews via social media platforms, sending interview invitations via emails, etc.

CUSTOMER SEGMENT 1	CUSTOMER SEGMENT 2	CUSTOMER SEGMENT 3
CHANNELS	**CHANNELS**	**CHANNELS**

CUSTOMER VALIDATION

REFLECTIVE EXERCISE

3. Create a spreadsheet that allows you to analyze and compare your customer inputs.

Instruction: Create a spreadsheet/ table that allows you to organize and manage your interview feedback in a manner that helps you compare your customer inputs within a segment or between segments, find patterns and extract valuable insights to guide your product or service development.

To the side is an example of how your table may look. You can develop your complete spreadsheet in Excel or an application of your choice.

Interviewee	Q1	Q2	Q3	Q4

CUSTOMER VALIDATION
REFLECTIVE EXERCISE

4. Reach out to potential customers using the channels through which you want to reach them.

Instruction: Using the channels defined in step 2, reach out to a minimum of 5 potential customers to set up interviews (Could include: telephone, video conferencing, in person, etc.).

To the side is an example of how your table may look. Duplicate this slide if you have more than five interviewees.
