Living RPG: Beyond Preset Choices

A Real-Time Multi-Agent Voice RPG Platform Powered by Multimodal AI

THEORETICAL FOUNDATION

Every Game Is a Role-Play: The Avatar Filter

∞ Universal Role-Playing Axiom

Explores the universal role-playing axiom underlying all digital media engagements.

I/O Perception Loop

Continuous sensory input and behavioral output anchoring the player inside the game reality.

The Avatar Filter

Translates raw multimodal inputs directly into deep, uncompromised psychological agency.

THE ULTIMATE PARADIGM

The Ultimate RPG: True Agency Meets a Living World

PILLAR I — True Agency

Freeing player intent from the constraints of pre-scripted dialogue trees and fixed button verbs.

Natural Spoken Language
Spoken language replaces rigid verbs and drop-down menu choices.

Common-Sense Affordances
Physical causality and environmental logic replace hardcoded scripts.

Continuous Intentionality
Tone, cadence, and vocal posture dynamically shape NPC reaction.

Output: Unconstrained creative problem solving in real time.

PILLAR II — Living World

An autonomous simulated ecology that continues to evolve and remember beyond player view.

Thermodynamic Decay
Irreversible world states and consequence entropy anchor reality.

Off-Screen Simulation
Decentralized agents progress factions and plots independently.

Societal Damping
Player ripples absorb into persistent institutional history.

Output: An ecosystem that never pauses or resets.

PRODUCT ARCHITECTURE

Architecture: Minimalist 2D Board & Multimodal Voice Engine

Minimalist 2D Board

Lightweight tactical grid and inventory cards providing clean spatial reference.

Low-power cross-platform footprint

Real-Time AI Game Master

Low-latency spoken comprehension interpreting contextual intent seamlessly.

Automated, invisible rules adjudication

Audio Theater of the Mind

Dynamic spatial soundscapes that evoke rich, imaginative environments.

Adaptive scoring driving mental flow

CORE GAMEPLAY LOOP

Spoken Intent Drives an Emergent Living Story

STAGE 1 **Natural-Language Tactics**

Player improvises: “I slash the flour sacks toward the torch flame.”

↓

STAGE 2 **Physical Collapse**

Flour dust explosion triggers permanent structural collapse of map routes.

↓

STAGE 3 **Persistent Lore**

Days later, tavern rumors and royal bounties cite the mill arsonist.

TARGET MARKET STRATEGY

Solving Tabletop Friction to Reach Mass Gamers

SEGMENT 01

Beginners & Introverts

Audio-only anonymous entry with zero rulebook memorization.

Key Value: Frictionless Onboarding

SEGMENT 02

Veteran Tabletop Players

24/7 AI-DM availability eliminating scheduling gridlock and prep burnout.

Key Value: On-Demand Session Play

SEGMENT 03

CRPG & Narrative Gamers

Unscripted agency beyond dialogue trees, with viral cooperative party appeal.

Key Value: Boundaryless Discovery

COMPETITIVE ADVANTAGES

Low Friction, Audio Privacy, and Infinite Freedom

Ubiquitous Mobile Presence

Instant immersion through phone and earbuds without heavy hardware barriers.

Seamless Cross-Platform State Sync

Continuous adventure progression preserved across devices and sessions.

Psychologically Safe Voice Spaces

Anonymous voice spaces fostering uninhibited roleplay expression.

THE ULTIMATE VISION

"Speak your will. Live the world."

Breaking free from preset choices to reshape a living web of destiny.

Voice-First • Multi-Agent Simulation • Boundless Emergence
